

## Product Release Announcement

### Latest Software Release Notes, February 2023 – March 2023

#### Issues Fixed

##### Browser Issue:

- On MAC-Safari, the Communicate > Email page was not loading the grid. This has been fixed.

##### CRM:

- The bulk push of users to CRM was implemented. (Channel enablement clients with CRM integrations to sync users should verify with Mindmatrix support.)

##### Contracts:

- The signature was missing from Approved Contracts when the Imported PDF page was used. This has been fixed.

##### Deals:

- Provided a search option based on the organization's external ID for Deals.

##### Exports:

- Provided stats data export option for the drip campaign.

##### Events Calendar:

- In the Event Calendar, the reminder interval saved was not reflected upon the edit. This has been fixed.
- Removed the additional 'comma' showing after the attachment name in 'Event calendar'.
- Sharing of Events will now be available for users with edit and the above permission for the event.

##### Editors:

- Email Editor: The line height was not increased (auto) if the font size was increased. This has been fixed.
- In the Form, the email validation checked for more than two letters in the domain. This has been fixed.

**Incentives:**

- 'Valid from' was not working as expected for the Incentive. This has been fixed.

**Lists:**

- Opportunity list query made consistent based on Sharing.
- Added condition based on the default values for contact smart lists.

**LMS:**

- FAQs were not visible for the LMS media side. This has been provided.
- Multiple videos added to Sub-Chapters were giving the 'loading' text in the Output. This has been fixed.

**Mobile View:**

- The navigation Description and Related links were broken in the mobile view. They have been hidden for mobile view.

**Notifications:**

- When an email is changed by Super Admin, it will not send the notification email if there is only a casing change in the email address.

**Notifications Manager:**

- Provided the button to mark all notifications as 'read'.

**Opportunities:**

- Provided data search based on the organization's external ID for Opportunities.
- Provided Organization and Company Custom fields in the PowerPoint plugin.

**Playbooks:**

- The video link was disappearing from the Playbook. This has been fixed.

**Product Database:**

- Product View - Request Information button implemented.

**Profile:**

- Provided 'Download' and 'Publish' as actions for Print Certificates and Badges in the "Achievements" of the User Profile.

**Plugins:**

- Made Blog posts downloadable for the Outlook plugin, and Chrome plugin.

**Reports:**

- User Report: The date range filter did not work when the "Date Format" is "DD/MM/YYYY". This has been fixed.
- In the organization report and user report, exported excel sheet data was not consistent with the grid count. This has been fixed.
- The account hyperlink on the Contact Report will now exist based on permission.

**Setup:**

- Partner Admins for Organization implemented.
- The "Setting" page was missing in the Edit mode of Blog post templates. This has been fixed.
- Provided filters for Organization Groups.
- "Import Organizations" functionality implemented for Super/Site Admin.
- Made the time for the expiry of reset password link configurable per Install.

**Social Posts:**

- Organization Custom Fields added for parsing in Social Messages.

**UI & Consistency:**

- Removed 'Word Break' from the Announcement Widget.

**Usability:**

- Changed the text of "Views" to "More" across all modal pages.
- Changed the placeholder text of the Email field in contacts.
- Changed the text for 'No usage data' in the info popup of Asset.
- Alphabetical ordering of external site pages in lists, scoring, and drip conditions.
- Moved the "Last ToS Accepted" condition in the user lists and company user lists to the "User activities" dropdown menu instead of in the "User record data".
- Provided details on the condition for the "Subscription List".
- The opportunity tab in Export was not getting reloaded automatically after the records are done processing. This has been fixed.

**View Assets:**

- Provided a setting to configure the display of the tabs/categories in the View Assets.
- Provided reordering of the Filter Categories

**Video Gallery:**

- Provided the capability to track internal video views using trackable links. Internal views will be tracked and categorized as “Internal Views”.

**V5:**

- Marketing (Non-Contact Centric) Playbook Media implemented.
- 

Please be advised that some of the product updates described are available in your account based on your current plan with Mindmatrix. If you would like to know more about adding a newly released feature to your account, email our team at [support@mindmatrix.net](mailto:support@mindmatrix.net). --
