

Product Release Announcement

Latest Software Release Notes, September – October 2022

Issues Fixed

Accounts:

- Provided the "Sharing" of Accounts as an action for multiple accounts selected.
- Provided "Industry Type" field for Accounts.

Exports:

- Provided export of assets with sharing and filters.

Grids:

- Organization Names and External IDs are added to the grid where users are displayed.

Lists:

- Company-level MDF Lists implemented.

Learning Management:

- Provision to add multiple assets (Sub-Chapter) to a Step/Chapter and to display those as sub-steps has been implemented.

Notifications:

- Partner Registration: If the User already exists then, MM platform will send a notification email mentioning the same
- Provided the option to send a notification email to Partner Users and/or Managers while assigning MDF Funds.

Playbooks:

- Asset objects: Added the toggle button for OR/AND conditions.
- The display of the asset in the embed tab has been made horizontally centered.

Reports:

- Added 'Accounts' column to Users, Organizations, and Organization Groups Report.
- User Reports: Custom range dates were not showing proper data in the grid. This has been fixed.

Social Posts:

- Reordering messages on the Social Drip removed the messages. This has been fixed.

**Setup:**

- When a user moved to the Summary page, the page was not loading but on finish, a new user was being created. This has been fixed.
- Images/Documents/Videos uploaded, Database records, and Solutions created from the Organization page will go to the Organization Library.

Tracking Links:

- External Tracking links: The link was not visible to another user within the same organization when marked as a public organization. This has been fixed.

UI & Consistency:

- MDF activity: 'Comments' field character limit check was not working in the edit mode. This has been fixed.

Usability:

- Drip: "Contacts & Timing" page will now save dynamically and the page no longer requires a save button.

V5:

- Organization Profile implemented.

View Assets:

- Duplicate Filter Categories were appearing in the filters when content types were selected. This has been fixed.
- Documents, Videos, and Presentations view page made consistent with the Universal View page.

***NOTE: AMP refers to Automated Marketing Platform (Mindmatrix) software.**

Please be advised that some of the product updates described are available in your account based upon your current plan with Mindmatrix. If you would like to know more about adding a newly released feature to your account, email our team at support@mindmatrix.net. --
